SUMMARY

Motivated Artificial Intelligence and Data Science undergraduate with a CGPA of **9.00** and hands-on experience in Machine Learning, Natural Language Processing, Python, and Data Analytics. Skilled in developing AI-powered applications, workflow automation solutions, and responsive web applications through internships and academic projects. Passionate about leveraging Artificial Intelligence and Data Science to solve real-world challenges and drive innovation.

EDUCATION

Jeppiaar Institute of Technology

2023 – 2027

Bachelor of Technology (B.Tech), Artificial Intelligence and Data Science – **CGPA : 9.00**

SKILLS

- **Programming** - Python
- **Web development** -Html, Css,Bootstrap
- **Designing** - UI/UX: Figma,Wireframing,Mockups,Prototyping
- **Machine learning** -Tensorflow,keras
- **Tools** - Vscode,Git,Github

INTERNSHIP

1. Artificial Intelligence & Machine Learning Intern

APRIL – 2025

Codetech IT Solutions – 1 Month

- Built a foundational understanding of AI/ML workflows by applying Python libraries (NumPy, Pandas, scikit-learn) to data manipulation and model development tasks.

2. UI/UX Design Intern

JULY – 2025

Codebind Technologies – 1 Month

- Designed wireframes, product mockups, and interactive prototypes using UI/UX design principles, enhancing usability, accessibility, and user engagement for web and learning-platform projects.

3. Full Stack Development Intern

NOVEMBER – 2025

TVK Technologies – 1 Month

- Built responsive web applications using HTML, CSS, JavaScript, and Angular fundamentals. • Improved user experience through optimized front-end development.

PROJECTS

1.AI-Driven Public Health Chatbot for Disease Awareness

ABSTRACT : Built an AI-driven healthcare chatbot leveraging NLP to provide automated disease awareness, symptom analysis, and preventive healthcare guidance, enhancing user access to accurate health information.

2. Daily Motivational Email Generator using n8n

ABSTRACT : Designed and implemented an automated email delivery system using n8n, JavaScript, REST APIs, and Gmail integration to fetch motivational content and send scheduled notifications.

3. Learning App – UI/UX Design

ABSTRACT : Developed an interactive learning app prototype using Figma, incorporating wireframing, prototyping, and user-centered design principles to deliver an accessible, responsive, and engaging user experience.

CERTIFICATIONS

1. Python Programming with Projects (**Infosys Springboard**) 2. AI for Beginners (**HP**) 3. Power BI for Beginners (**Microsoft**)

ACTIVITIES

- Participated in the **Smart India Hackathon**, collaborating on innovative technology-driven problem-solving initiatives.
- Attended a **National Seminar on AI-Based Advanced Sensor Design for Real-Time Medical Applications**, gaining exposure to emerging Artificial Intelligence applications in healthcare technologies.
- Completed a **5-Day Data Analytics Workshop**, developing practical knowledge in data analysis, visualization, and data-driven decision-making techniques.
